Software Engineering - TA Meeting Team 032

Minutes of Meeting (MoM)

Date-Time : NOV 1-2026 | 8:00 - 8:45 PM IST

Agenda:

- Review of the Jira board and the contribution of each team member.
- Review of the UI flow and the full application workflow (demo).
- Discussion on the technology choice, database, mentor fields and the scoring algorithm.
- Review of the Milestone 2 report, the Gantt chart and the user stories.
- Next steps and action items.

Attendees:

- Priyanshu Agarwal (Mentor)
- Project Team: Hemendra, Ankur, Adnan, Himanshu, Pavan.

Summary Points & Actions:

1- Jira board review.

The TA started the meeting with a review of the Jira board and asked whether all team members have contributed equally.

2- UI flow.

Adnan shared the screen and presented the UI flow. The TA asked Ankur the reason for choosing Vue.js.

3- Mentor fields and database.

The TA asked about the mentor fields. Ankur showed the ER diagram for it.

The TA asked whether the current dummy objects are stored in a database or in local storage. The team clarified that they are in local storage.

4- Full application workflow.

The TA asked for the full application workflow, from creating a new student to the admin panel. All 5 team members took part in explaining it.

5- Scoring algorithm.

The TA asked Ankur about the scoring algorithm.

6- UI improvement and Vue code.

The TA asked the team to implement a better UI before the deadline, since AI tools are permitted.

The TA asked the team to submit the Vue code instead of plain vanilla JavaScript. The frontend should be designed in compliance with the APIs.

Action: Team

7- AI feature.

The TA asked whether the team is implementing any AI feature. A few features were discussed. The TA said that every team is expected to have at least 1 AI feature. The team will decide the feature in the next scrum meeting.

Action: Team (next scrum meeting)

8- Report review.

At least 3 scrum meetings are required in the final report.

Scrum meeting 2 had only 3 attendees. The reason for the absence of the other 2 members should be listed in the report.

Hemendra explained the Design of Components section of the report to the TA.

Action: Team

9- Notifications and tracking of the mentorship.

The TA asked which mode is used for notifications. The team said email.

The TA asked how the condition of the mentorship will be tracked. The team said it is using the concern field, and a better solution will be decided in the next scrum meeting. Himanshu and Pavan said that AI can also be used to track it. This will be discussed in the next scrum meeting.

Action: Team (next scrum meeting)

10- Delayed proposal confirmation.

The TA asked what happens if the proposal confirmation is delayed by any side. The team said a notification will be sent to the admin.

11- Gantt chart.

The TA checked the Gantt chart on Jira and the status of the tasks. The screenshot of the latest Gantt chart should be included in the final report.

Action: Team

12- User stories.

The TA asked whether all user stories have been covered in the design. The team said yes. The TA advised the team to focus on the core and best user requirements first.

13- Contribution of each member.

The TA asked each member about their contribution, and everyone explained it.

14- ZIP validity check.

Hemendra and Adnan raised a question about the ZIP validity check. It was clarified by the TA.
